

Levingston – Providing Technical Services since August 1, 1961

Join me in celebrating the success of Levingston Group, LLC operating for **61 years**.

Like most businesses that have operated for some time, we have had good years and challenging years, but have always kept our focus on our mission as a service company:

“Levingston has always and will continue to consider quality to be its highest priority. By ‘quality’ we mean providing our clients with a service, which includes keeping the cost within budget, getting the work out on time, and producing results, which will meet or exceed the expectation and needs of the clients in all regards. We will at all times maintain a high level of ethics and professionalism. We consider the people in our company to be what makes the company and will constantly seek to improve the working conditions, training, organization, and job security for our people, allowing them to reach their highest potential.”

We are quite optimistic and excited about the future of Levingston. We constantly say that a service organization is only as good as its employees. We feel that the success of Levingston all these years is directly attributed to the quality of staff, no doubt.

Thank you for all you do and God bless.

Mark Nixon
President

LEVINGSTON GROUP, LLC
